

October 5, 2006

The Honorable Tom Coburn
United States Senate
Washington, DC 20515

Dear Senator Coburn:

Thank you for the opportunity to respond to your letter of September 21 requesting additional information on several conferences listed in the Department of Education's August 31, 2006 conference spending report. I am happy to provide you with this information in the enclosed document.

I am also providing an updated FY 06 conference activity report. We have included the amount spent on conferences by program office, which collectively adds up to the reported \$9.2 million total for conference spending for FY 06. Please note that we have not itemized the costs of each conference and are still working with the program offices to gather this information and will provide it to you as soon as possible.

As noted in my testimony, individual offices are responsible for approving conference attendance and participation and each has its own policies for determining what is appropriate conference travel. All travel for Department employees must be authorized and there are manual and system controls over the approval and vouchering processes. I appreciate your interest in this issue and we will be reviewing the Department's policies to determine whether revisions and further guidance is needed to ensure greater oversight of the process and the taxpayer's dollars.

If you have any further questions, please contact our Office of Legislation and Congressional Affairs at 401-0020.

Sincerely,

Michell Clark

Enclosure

1. Electronic Aid Conference, 148 people, San Diego, CA

How much did it cost?

\$1,236,601.27

Please explain ED's participation in the conference.

Federal Student Aid (FSA) was the host of the conference. FSA hosts two fall conferences each year, one in the east and one in the west, to accommodate the geographic diversity of the Department's school customer base. This also permits FSA to easily integrate its regional staff into conference locations in near-by cities. Last year, regional staff represented almost a quarter of the on-site Department attendees.

Federal Student Aid staff, who annually account for less than 10% of total conference attendees, support these conferences in several ways including as session instructors and by providing conference logistics. FSA's Executive Management Team approves all staff members attending each conference.

What is the purpose of the conference?

To provide critical training forums for financial aid administrators. There are over 6000 schools that participate in the Department's student aid programs, which account for approximately \$80 billion. Each conference is attended by as many as 2,500 customers who can choose from up to 70 different training sessions.

The various locations were used because they best met the required date, function space and sleeping room requirements for FSA's conferences at the time they were selected. The size of these conferences prohibits FSA from choosing all but the nation's largest conference hotels, where hotel rates can be negotiated for Departmental staff. The locations change each year.

What were the dates of the conference?

November 2-5, 2003

2. Electronic Aid Conference, 158 people, New Orleans, LA

How Much Did it Cost?

\$1,216,404.15

Please explain the purpose of Ed's participation in the conference.

See response above.

What is the purpose of the conference?

See response above.

What were the dates of the conference?

December 2-5, 2003

3. Electronic Aid (Spring) Conference, 139 people, New York, NY

How much did it cost?

\$1,079,329.26

Please explain the purpose of ED's participation in the conference?

Same as above. In 2005, FSA discontinued its spring conference and now relies on the two fall conferences to provide training and to update participants on changes to federal student aid programs.

What is the purpose of the conference?

Same as above.

What were the dates of the conference?

March 29-31, 2004

4. Pacific Regional Education Lab Conference, Honolulu, HI

How much did it cost?

\$1,934.69

Did attendees take annual leave immediately before or after the conference? What were the dates?

No leave was taken.

Please explain the purpose of ED's participation in the conference.

To moderate plenary sessions on using Federal resources to improve student learning; make presentations on Federal fiduciary requirements for establishing financial management systems, requirements for consolidating grants to improve student achievement(including distance learning to meet challenges of the Pacific Islands' remote locations), and meeting the needs of English language learners and disabled students.

What is the purpose of the conference?

To provide the Pacific entities (American Samoa, Guam and the Commonwealth of the Northern Mariana Islands) with technical assistance on how to use their consolidated Federal grants to improve student achievement; to provide the Freely Associated States (Palau, Marshall Islands, and the Federated States of Micronesia) with guidance on the effective use of Compact Funds and the Supplemental Education Opportunity grants under the newly-negotiated Compact II; and, to provide all entities with guidance on the financial management of their federal grants. The Pacific entities were all determined to be high risk grantees and have special conditions on their federal grants. This conference was to provide them with technical assistance.

What were the dates of the conference?

October 13-17, 2004

5. Federal Education Programs Seminar, 1 person, Honolulu, HI

How much did it cost?

\$2,712.30

Did attendees take annual leave immediately before or after the conference? What were the dates?

No leave was taken.

Please explain the purpose of ED's participation in the conference.

To moderate sessions on developing a comprehensive plan to improve student achievement. Made presentations on establishing education standards and developing assessments aligned to those standards, and the requirements for highly qualified teachers and why they are important for education reform. Staff provided technical assistance work sessions with break out groups to address the special needs of each entity throughout the conference.

What is the purpose of the conference?

To provide guidance to the Pacific entities on improving student achievement through standards-based reform and to provide guidance on meeting the challenge of educating English language learners in the context of education reform.

The Pacific Resources for Education and Learning (PREL) chose Hawaii as the location for the Federal Education Programs Seminar because it was centrally located for the key participants -- American Samoa, Guam, and the Commonwealth of the Northern Mariana Islands. This conference coincided with a PREL meeting that had participants who were appropriate attendees for the conference.

What were the dates of the conference?

June 4-9, 2005

6. Annual Binational Migrant Education Forum, 3 people, Guadalajara, Mexico

How much did it cost?

\$6,502.51

Did attendees take annual leave immediately before or after the conference? What were the dates?

No leave was taken.

Please explain the purpose of ED's participation in the conference.

To implement the Memorandum of Understanding (MOU) on Education between the Government of the United States and the Government of the United States of Mexico that was signed by the respective Secretaries of Education; to present information on programs affecting migrant students under the Elementary and Secondary Education Act; to work with States on developing a strategic plan for addressing educational needs of migrant students; to review issues related to visas and the teacher exchange program; to identify new areas of cooperation and strengthen existing ones; and, to meet with Mexican federal and state representatives to address educational issues that affect binational migrant students.

What is the purpose of the conference?

The Binational Migrant Education Forum provides an opportunity for the Migrant Education Programs from the United States and Mexico to strengthen and further their collaboration in addressing the educational needs of children who are migrating between the U.S. and Mexico with their parents or guardians who work in the agricultural or fishing areas as migrant workers. Through the Forum, educators work to promote the learning and achievement of these binational migrant students through a program of initiatives, identified as focus areas, which include information and dissemination; teacher exchange programs; access to schools; and culture and education resources.

What were the dates of the conference?

June 4-9, 2005

7. 26th Annual TRIO Conference, 1 person, San Juan, Puerto Rico

How much did it cost?

\$1403

Did attendees take annual leave immediately before or after the conference? What were the dates?

No annual leave was taken.

Please explain the purpose of ED's participation in the conference.

Staff spoke at the general session and provided a Federal update to about 100 conference participants; also provided technical assistance to current grantees.

What is the purpose of the conference?

The Caribbean Association of TRIO Programs (CATP) sponsors this conference. CATP represents Puerto Rico and the U.S. Virgin Islands. CATP promotes access, retention and opportunity for disadvantaged and minority youth in Puerto Rico and the U.S. Virgin Islands. It is one of 11 regional associations of professionals working on federally-funded TRIO projects. The CATP meeting is held in Puerto Rico since the members of the association live and work in Puerto Rico.

The federal TRIO programs are educational outreach programs designed to motivate and support students from disadvantaged backgrounds to progress through the academic pipeline. In FY 2005, the Department funded 2,707 grants under the Federal TRIO Programs to serve an estimated 877,777 students. Of this number, 55 TRIO projects are in Puerto Rico and the U.S. Virgin Islands serving an estimated 21,655 students.

What were the dates of the conference?

May 18-19, 2005.

8. Federal Update Student Loan Programs, 1 person, Honolulu, HI

How much did it cost?

\$2131

Did attendees take annual leave immediately before or after the conference? What were the dates?

The employee took three days of annual leave -- Friday, March 4, 2005, and Thursday and Friday, March 10th and 11th, 2005.

Please explain the purpose of ED's participation in the conference.

Department staff provided a Federal update on the Title IV student financial aid programs, with particular focus on the Perkins Loan program, to about 250 attendees and participated in training programs for new loan administrators.

What is the purpose of the conference?

The Sungard Summit is held annually and attracts about 5,000 attendees. Department staff have participated in this conference for the past five years; this is the first time it was held in Hawaii. Sungard is a major provider of computer software and other information technology services to institutions of higher education and other sectors. Sungard provides student loan servicing software and other information technology software packages to support schools in the administration of their student financial aid programs.

What were the dates of the conference?

March 7-9, 2005.

9. Rural Independent Living Conference, 1 person and an assistant as a reasonable accommodation, Honolulu, HI

How much did it cost?

\$5,496.45

Did attendees take annual leave immediately before or after the conference? What were the dates?

No annual leave was taken before or after the conference.

Please explain the purpose of ED's participation in the conference.

Staff were asked to address the conferees at the opening plenary session and to conduct workshops on effective ways for centers for independent living to access and provide transportation to persons with disabilities. Department staff participated in the opening plenary session and provided the groundwork for what would be discussed over the next few days. Staff conducted two widely attended workshops. The first provided an in-depth discussion on the reorganization of the Rehabilitative Services Administration (RSA) and how grantees would be affected. The second session focused on newly implemented standards and performance measures that would affect grantees, and in particular, measures addressing a new program focus on transportation for persons with disabilities in rural areas. Staff also participated in a plenary session with representatives of the Department of Transportation to discuss transportation issues and options for persons with disabilities in rural areas.

What is the purpose of the conference?

The conference is the single largest gathering of key stakeholders and grantees representing rural independent living programs. This year's focus was on improving transportation options for persons with disabilities in rural areas.

What were the dates of the conference?

October 7-11, 2005
